A broker matches their clients with a health insurance company or plan that best suits the client’s needs.

The broker may be paid a commission by the insurance company, but represents the interests of their client rather than the insurance company.

In some cases, as with Gallagher Benefit Services (GBS), a broker can also act as a third-party administrator, handling enrollment and billing, benefit and claims questions, etc.
Insurance Carrier

• The company responsible for providing you with your health insurance plan by paying your claims, maintaining provider networks, coordinating billing, and offering member assistance services.
Preferred Provider Organization (PPO)

With a PPO plan, like the name implies, it’s recommended you get your medical care from doctors or hospitals in the insurance company’s network of preferred providers if you want your claims paid at the highest level.

You will likely not be required to coordinate your care through a single primary care physician, as you would with an HMO, but you will want to make sure that the health care providers you visit participate in the PPO network.

Services rendered by out-of-network providers may still be covered, but will likely be paid at a lower level.
In-Network Provider

A healthcare professional, hospital or pharmacy that has a contractual relationship with your health insurance company.

This contractual relationship typically establishes allowable charges for specific services. In return for entering into this kind of relationship with an insurance company, a healthcare provider typically gains patients, and a primary care physician may receive a capitation fee for each patient assigned to his or her care.

An Out-of-Network provider is a healthcare professional, hospital, or pharmacy that is not part of your health plan's network of preferred (In-Network) providers. You will generally pay more for services received from out-of-network providers, in part because you may be responsible for out-of-pocket costs that are considered above the “reasonable and customary” fees.
Copayment

A flat charge that your health insurance plan may require you to pay for a specific medical service or supply, also referred to as a "copay."

For example, your health insurance plan may require a $20 copayment for an office visit or brand-name prescription drug, after which the insurance company pays the remainder of the charges.
Coinsurance

The amount that you are required to pay for covered medical services after you've satisfied any copayment or deductible required by your health insurance plan.

Coinsurance is typically a percentage of the charge for a service rendered by a healthcare provider.

For example, if your insurance company covers 80% of the allowable charge for a specific service, you may be required to cover the remaining 20% as coinsurance.
Deductible

A specific dollar amount that your health insurance company may require that you pay out-of-pocket each year, or per illness, before your health insurance plan begins to make payments for claims.

Not all health insurance plans require a deductible.
Out-of-Pocket Maximum

Out-of-pocket maximums apply to all medical plans. This is the maximum amount you will pay for health care costs in a plan year.

Once you have reached the out-of-pocket maximum, the plan will fully cover most eligible medical expenses for the rest of the plan year.
Lifetime Maximum

The maximum dollar amount that a health insurance company agrees to pay on behalf of a member for covered services during the course of his or her lifetime.
Preexisting Conditions

An illness or injury that was diagnosed and/or treated prior to the effective date of your coverage.

Some health insurance plans will exclude coverage for pre-existing conditions.
Claim

A request by a plan member, or a plan member's health care provider, for the insurance company to pay for medical services.

NOTE: If you pay out of pocket and need to be reimbursed, please contact your administrator for a claim form.
Medical Evacuation & Repatriation Insurance

This coverage, required of all J-Visa holders, is for arranging and paying for emergency evacuation to the nearest adequate medical facility, and the repatriation of mortal remains.
J1 & J2 Coverage Requirements

As per the U.S. department of state, International postdocs and their dependents must have coverage that meets the minimum requirements below for the entire duration of their stay in the United States.

• Medical benefits of at least $100,000 per accident or illness
• Repatriation of remains coverage amounting to $25,000
• Expenses associated with the emergency medical evacuation of the exchange visitor in the amount of $50,000
• A deductible of no more than $500 per accident or illness

The Waiver Process

How to waive if you have alternate coverage

In order to waive out of purchasing a health insurance plan under the umbrella of the Visiting Scholar Benefit Plan, you must provide proof of insurance coverage that meets the University’s requirements.

**Campus requirements for minimum levels of health insurance coverage are:**

- $100,000 USD per accident & illness in medical coverage
- Deductible cannot exceed $500 per accident or illness
- Coinsurance cannot exceed 25%
- Medical evacuation coverage must be at least $50,000 USD
- Repatriation coverage must be at least $25,000 USD
- Pre-existing conditions must be a covered benefit. The waiting period for benefit coverage cannot exceed 12 months. Please note: Policy’s with coverage for only “Acute onset of pre-existing conditions” do not meet this requirement.
- Carrier must be at least A- rated or backed by the full faith and credit of the Exchange Visitor's government
All Visiting Scholars: If you have dependents accompanying you to the U.S. (i.e. spouse, domestic partner, child(ren)), you must purchase insurance that meets the U.S. State Department requirements for your dependents.

If you have insurance from your home country or purchased insurance that meets the above requirements, you may submit a waiver request to opt out of the University’s Visiting Scholar Benefit Plan. To complete the waiver process:

1. Visit campus portal
