Sexual harassment, racial discrimination, and targeted hostility have no place in a well-regulated community, whatever its nature.

People deserve to be treated with consideration, regardless of their gender, ethnicity, physical appearance, sexual orientation, or political and religious outlook.

It is important for UC Berkeley to maintain a climate for intellectual activity that is collegial, respectful, and conducive to focused and productive inquiry.

Attitudes and behavior that are hostile or demeaning to members of our community, or that detract from the ability of our students, staff, and colleagues to focus effectively on their work are not appropriate.
